

SYNTHETIC DEMONSTRATION DATA -- FOR EVALUATION ONLY

REFINERY SAFETY STANDARD OPERATING PROCEDURE

Document ID: SOP-SAFETY-004 (Version 3.1)

Title: Thermal Hazard Mitigation & Personnel Protective Equipment

1. Hazard Identification:

Equipment operating above 70 degrees C surface temperature constitutes a burn hazard.

High-temperature thermal hazard signage must be displayed within a 2-meter radius.

2. Required PPE: Heat-resistant gloves and full fire-retardant coveralls required.
